

5000 Litre Round Water Tank

Shown in Basalt

10 YEAR WARRANTY

Built to the highest of Australian standards, this round water tank has been designed to be durable, in order to withstand the harsh Australian weather.

This round water tank is designed for medium to large water consumers. The round shape is ideal for spaces that have limited area, in a more traditional style.

- Built to last, using UV stabilised food grade polyethylene. BPA free.
- Complies with AS/NZS 4766 standard for above ground tanks.
- Tap outlet locations can be customised to suit a customer's requirements. See options below:
